CORE VALUES

Quality

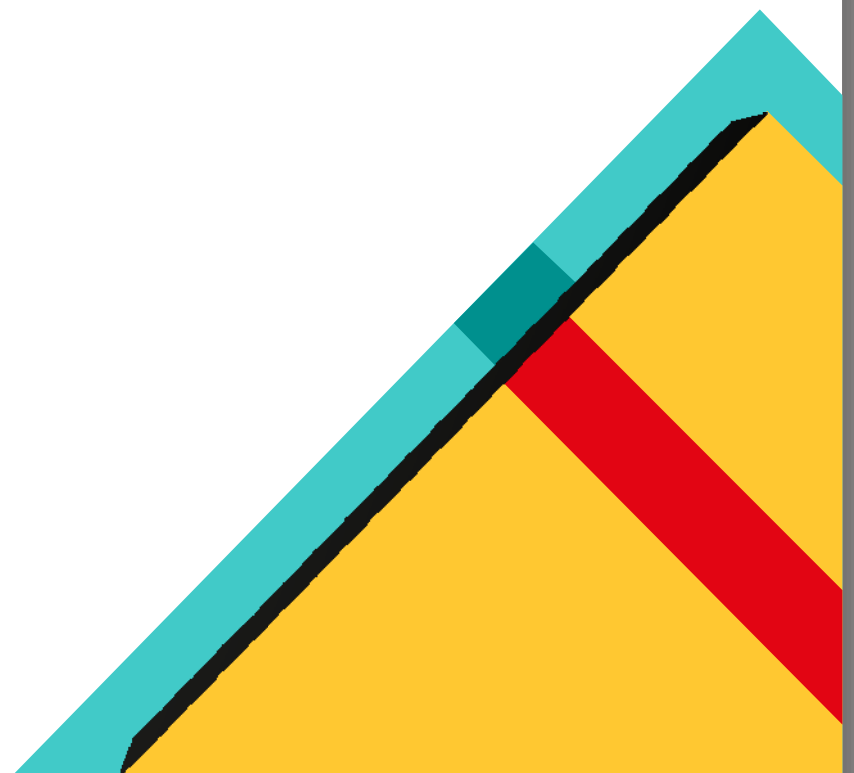

Customer Satisfaction

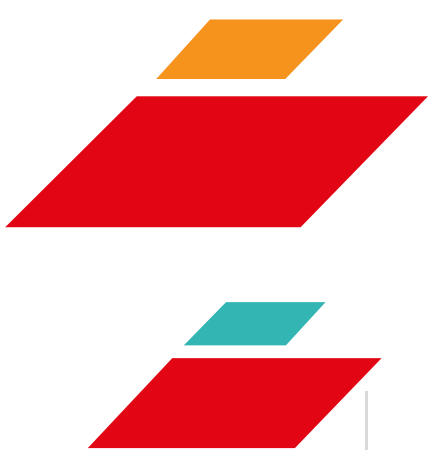

Customer for life

Work Transparency

Relationship

Profitable Growth (Inspirational)

Project Management

Service

When we work on a project a time framed and task based tracking is required to you early before the project commencement. This helps us in tracking the project early, for a timely completion of the project. The project trackers update you on a regular basis about the time frame and the status of your project.

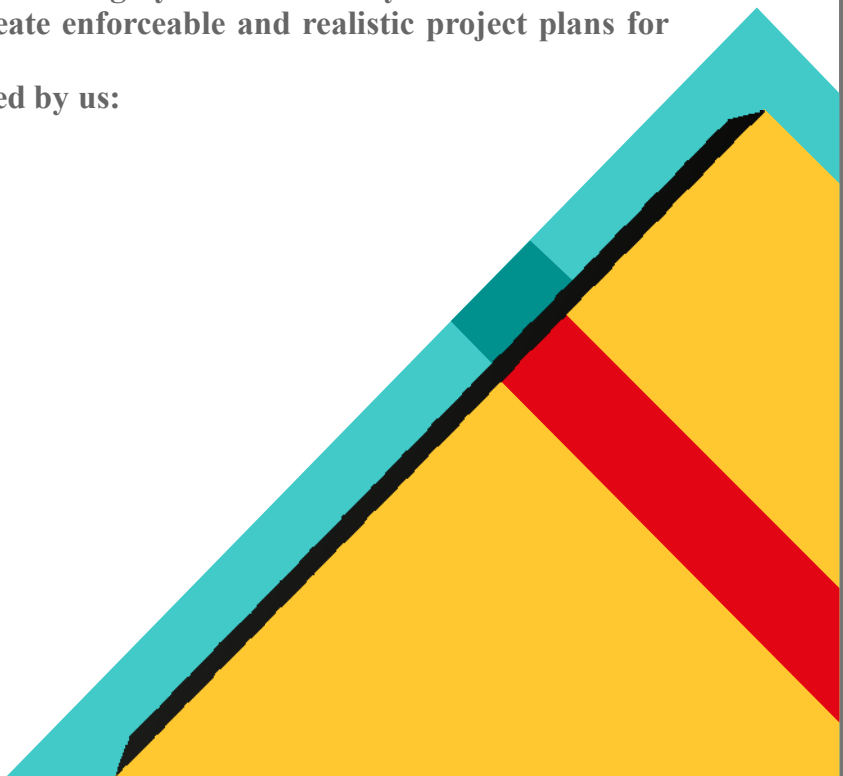

The supervision of the project is done from the day the interiors of the project begin. We allot dedicated members to your project for 24 hour supervision. They bear the full responsibility till the handover of the project to you.

Consultancy

We offer a range of consultancy services, specializing in electrical and building services. The emphasis of the work we undertakes is to service client's needs with an economical and practical solution. These services are highly demanded by the construction industry, among others. Moreover, we create enforceable and realistic project plans for the clients with excellence.

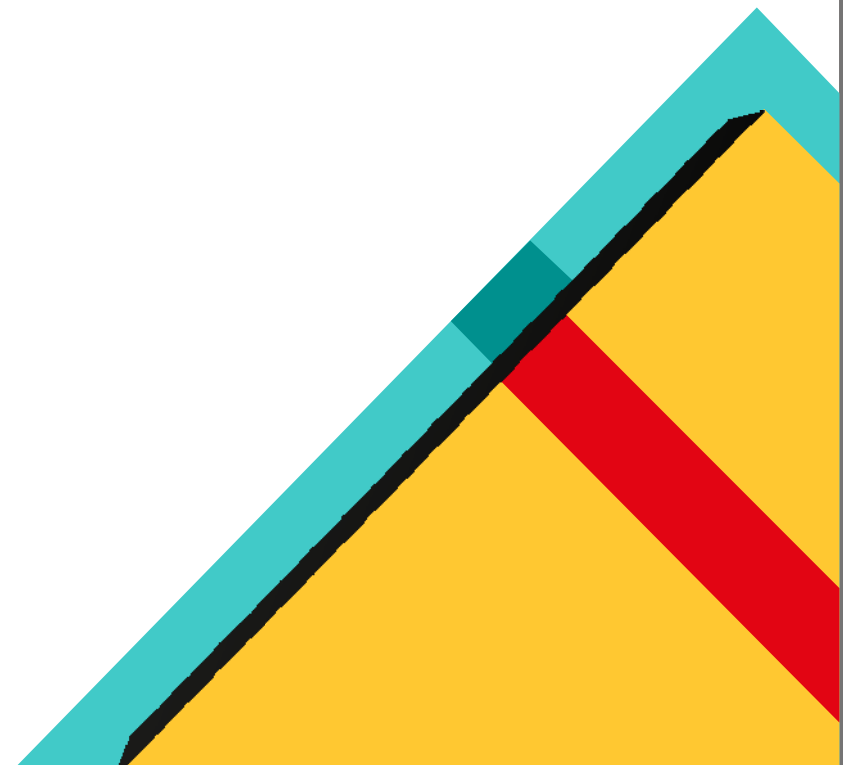

Following are some of the methods followed by us:

- Project Analysis
- Design & MEP Services
- Power Panels Design & Making.
- Security System Design and
- Tendering, Material Management
- Quality & Safety Management
- Resource Management
